Gift "for Her Neck."

A story is told of a young Japanese engineering apprentice in connection with the Christmas custom of kissing. He was serving his time in the north of England, and was astonished when a waitress at the dining-rooms which he regularly frequented kissed him under the mistletoe. On its being explained to him that a present was expected in return, he suggested a pair of gloves. The damsel, however, had heard that he was immensely wealthy, and gently hinted that something for her neck would be more acceptable. When the present arrived next day she conjured up visions of a pearl necklace as she tremblingly undid the parcel. Then was disclosed to her disappointed gaze a Jap's idea of "something for her neck." It took the shape of a bar of soap!

When Sins Arise.

I stepped into the express elevator of a skyscraper and was the only passenger. Presently approached three very black negroes, two evidently just arrived from the South. They asked the starter a question, evidently with regard to the location of a tenant. The starter pushed all three into the car and said to the elevator boy, "Fifteenth!" As the car didn't start right away one of the darkies, after scrutinizing the car, said to me, with evident surprise: "Be this your office, Mistah Jenins?" One of his companions, who evidently had made the ascent before, replied: "Disam no office! Disam de elevatah! You jes wait till she go up. But, Lordy, dat's nuthin' to what she do comin' down. All you sins jes' rises up befoh you!"—Cartoons Magazine.

Divorces are on the increase in the State of Virginia. In the city of Richmond in the year 1919 there were 600 couples freed from marital bonds, which was a decided increase over any previous year. And the year 1920 promises to lead 1919 by a goodly number, there having been up to July 24 450 divorces granted in that city.

At a meeting of the Board of Supervisors today, the Board appropriated $5,000 towards building a steel bridge over James river at Bent Creek, on the condition that C. & O. Ry. Co. will build and maintain said bridge within two years. This is a wise expenditure of the public funds and will serve a large section of our county people on the north side. Now for a good road from Bent Creek to Appomattox

Says Tucker Will Have Easy Sailing

According to W. L Dennis, of Grundy, Buchanan county, business man and politician, there will be little use in any man opposing Harry St. George Tucker for the gubernatorial nomination next year. The latter appears to have the prize tucked away, and it is his by default. Mr. Dennis has recently traveled over certain sections of the State, following in the wake of Mr Tucker, and he finds that the Valley man is sweeping all before him. In fact, Mr. Dennis opines that the nomination will be unanimous Mr. Tucker has been campaigning since the last session of the legislature, his slogan being "Back to the constitution," and he has been receiving flattering welcome in every direction.

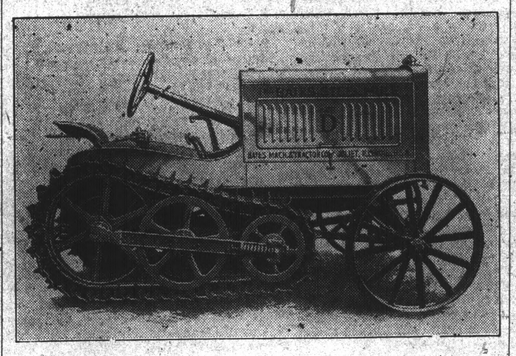
Every Inch of the Bates Steel Mule is Thoroughbred



The United States government by means of the Department of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner—men who say that the tractor has paid—are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing. No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quantity production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE costs slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to actually USE it.

The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There is'nt a part that is'nt time-tried and tested. There is'nt a part that experience has'nt dictated the shape and size of; and in it all there is'nt one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you can not afford to pack your seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offerd in any tractor on the American market today.
